necessary now that our pumps are capable of pumping a liberal supply.

In conclusion I hope the Government will now be convinced that this Department has not been so unmindful of its duty as the Sanitary Commissioner would make it appear. No doubt the improvements have taken some time, but this can be explained by the fact that the supply to the City had to be maintained all the time and it was therefore necessary to carry out the works only piece meal.

Sanitary Commissioner's office,
Bangalore, dated 4-10-09

From.

Lt. Col. John Smyth, M.D., I.M.S.,
Sanitary Commissioner to Mysore Govt.,
Bangalore

To.

K.S. Chandrasekhara Iyer Esq, B.A., B.L.,
Secretary to Mysore Govt., Gen & Rev Dept's
Bangalore.

Sir,

Yours No. 2837 of 21st September 1909 forwarding the letter No. 442 dated 13th August 09 to Government from the Executive Engineer Water Supply Division, I have the honor to say that I fully acknowledge the work that has been done in connection with these filters (Vani Vilas at Mysore) but after all has been done that the Engineer refers to in his letter, the insanitary condition which I referred to specially in my letter - those that I pointed out to the late Captain Daws R.E. - still exist in just the same or rather worse condition than they were at the time of H.R.H. the Prince of Wales' visit - unless indeed they have been put right since my letter to Government now under reference. What I referred to is the feeder channel at its discharging end. With the greatest difficulty I got this channel --- covered in in a temporary fashion for H.R.H.'s visit - and I cannot see that anything has been done to it since - where it is crossed by the road it is a mere latrine, and as the covering is of the most flimsy nature, night soil is readily washed through into the feeder, and until this is put -- right, the filter installation will remain a failure in spite of all the money and labour now being spent on it - and as I have said before, once, no sort of filtration can be made of water of such quality or of the ---

BRIEF ABSTRACT OF LIFE

Submits for sanction an estimate amounting to Rs 4,910/- on account of the maintenance of the Vamidas water works during the year 1909-1910 and states that it does not include the cost of the Electric power supplied to the Pumps, as also charges on account of tools and plant - NOTES AND ORDERS

The estimate for the working expenses of the Vamidas water works during the 1908-09 also amounted to Rs 5000/- There is a provision of Rs 2000/- in the Current year's Budget of the Mysore Ry.

Serial

Municipality -

2. During the previous years, charges on account of tools and plant were not debited to the Municipality. Following that precedent, provision has not been made therefor in the present estimate also. No provision has also been made on account of the Electric power supplied to the Pumps. The question as to the rate at which it should be charged is pending orders of the Govt.

3. The Mysore City Corp. Board having recently suggested that the Control of the water works should vest in the Munc. Council, the latter have appointed a committee consisting of the President and Vice-President and two non-official Munc. Councillors to look into the subject in all its aspects and have requested the Chief Engineer to meet them. The results of their deliberations are awaited. In the meantime with a view to enable the Chief Engineer to incur expenditure on account of the maintenance of the water works, he has requested to raise his budget by the amount of the present estimate.

From

THE CHIEF ENGINEER OF MYSORE,
BANGALORE

To

K. S. Chandrasekhara Aiyer Esq., B.A., B.L.,
Secretary to the Government of
His Highness the Maharaja of Mysore,
General and Revenue Departments.

I have the honor to forward for the sanction of Government, the accompanying estimate amounting to Rs 14,910 for the maintenance of the Vani Vilas Water Works of the Mysore City for the year 1909-10 and to inform you that the provisions under the several sub heads differ somewhat from the last year's maintenance estimate for which necessary explanation is given by the Executive Engineer in the report attached thereto. The charge is debitable to the budget of the Mysore City Municipality. No ~~charge~~ provision is made for the establishment and tools & plant charges, the same being having been waived.

2. The pumping Staff at Belagola is in accordance with the revised scale proposed by the Executive Engineer which has been sent up separately to Government for sanction. The question as to what rate is to be charged for the electrical power supplied to the pumps is also under the consideration of Government.

3. As usual, the amount of the sanction estimate may be transferred as an additional grant to the P.W. Budget under
